## Hela Taşları

En son teknoloji ile üretilen hela taşları, özel kanal yapıları sayesinde, su basıncını maksimum düzeyde kullanarak, 9 litre yerine 5 litre su ile etkin temizlik sağlıyor.

## Squatting Pans

Engineered using the latest technology, squatting pans, thanks to a special canal design which takes advantage of a sharper gradient to produce the maximum water pressure possible, reduces the amount of water required to 5 instead of 9 liters for maximum flushing efficiency.
